THAI AIRWAYS INTERNATIONAL EXTENDS LONG-TERM PARTNERSHIP WITH WFS IN FRANCE

Thai Airways International Public Company Limited has extended its long-standing cargo handling contract with Worldwide Flight Services (WFS) in France.

The new agreement will extend the relationship between the two companies to more than 35 years and covers cargo, mail and express handling at airports across the country. WFS will also provide cargo security services and trucking operations between regional airports and Paris CDG for THAI.

In addition to handling cargo carried onboard the airline's daily Airbus A380 flights between Paris and Bangkok, WFS will also provide offline handling at a further 12 airports in France; Orly, Lyon, Marseille, Bordeaux, Nantes, Lille, Toulouse, Strasbourg, Mulhouse, Nice, Montpellier and Rennes.

"To have earned a business relationship of this longevity with such a major international airline as THAI is a great sense

of pride for WFS, and especially our cargo team in France. We understand the airline's service requirements so well and underpin these with the highest levels of safety and security. We thank THAI for its continued trust in WFS and look forward to serving the airline and its customers for many

more years to come," said John Batten, EVP Cargo Europe Middle East, Africa & Asia (EMEA) at WFS.
